
I represent the owners of the Executive Park complex located at the intersection of North Druid Hills Road and I-85. You have probably heard about redevelopment of that property. There have been discussions ongoing for some time with DeKalb County and the various entities who were looking at redevelopment of the larger area in conjunction with the Sembler proposal. It now appears that the Sembler development is on hold for an indefinite period and Executive Park would like to move forward with their planning and zoning process independently.

No applications have been filed with DeKalb County at this point. We would like to schedule a meeting with many of the neighborhood groups which we think will be interested in the project prior to filing. We have reserved the Kittredge School for a meeting April 29 at 7:00 p.m. Since it is intended that this be a general informational meeting with as many members of the community as would like to attend, I would appreciate it if you could disseminate this email to members of your organization.

We will plan to have follow-up meetings with specific interested neighborhood groups as may be necessary and appropriate after the April 29th meeting, but thought it would be helpful to have one general announcement and discussion at this stage in the process. Please feel free to respond to me with any questions or comments. Thank you for your attention to this.
